

Purpose: This evaluation form is the foundation for the formation of next year's teams. Please be honest in your evaluation and base your evaluation upon game performance or potential.

Directions: Complete the form and return, via email if possible, to your Division Director prior to or at tournament package pickup on May 11.

Skill Criterion: Grade each player based upon his or her performance COMPARED TO ALL PLAYERS WITHIN THE AGE DIVISION. An "A" player should be in the top 20% of all players in the age division, a "B" player within the next 20%, and so on. "C" players would be competent participants and are mid-level players. "D" players are developing players and "E" players require elementary soccer skill.

"A" = Current level of player development allows this player to consistently dominate players in her age level.

"B" = Current level of player development allows this player to be consistently competitive with all players in her age level.

"C" = Current level of player development allows this player to compete with most players in her age level.

"D" = Current level of player development requires additional experience and practice to be able to compete with most players at her age level.

"E" = Player lacks the elementary skills needed, and basic tactical understanding, to play the game
